📄 aymane-atigui | 📱 aymaneatigui

Full Stack & DevOps engineer with over 3 years of experience building and running web and mobile applications in production. I work across the whole chain, from multi-stack development to database design and infrastructure management (Linux, Docker, CI/CD, AWS). Experience in the restaurant and FoodTech sector, with apps published on the App Store and Google Play. **Available immediately.**

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS

Mobile: React Native, Expo, Flutter, Dart

Backend: Node.js, Express.js, Nest.js, Java, Spring Boot, PHP, Python, REST APIs

Databases: PostgreSQL, MongoDB, MySQL, Supabase, Firebase, Redis, Prisma, SQL

DevOps & Cloud: AWS, Linux, Bash, Docker, Kubernetes, CI/CD, GitHub Actions, Nginx, Traefik, Git

Methods & AI: Agile Scrum, Jira, Git Flow, LLM integration (OpenAI, Gemini), Claude Code

EXPERIENCE

CyberLabs

05/2026 — Present

Full Stack & DevOps Engineer

Casablanca, Morocco

- Development, deployment and maintenance of 9 client applications published on the App Store and Google Play (new features, complete redesigns, release management).
- Infrastructure administration: Linux servers, Docker, Traefik and Nginx reverse proxies, CI/CD pipelines with GitHub Actions.
- Database design (MongoDB, PostgreSQL, Supabase, Firebase) and payment integration: Stripe, RevenueCat, Apple Pay, Google Pay.
- Multi-stack development: React, React Native, Expo, Flutter, Next.js, Nest.js, Java, Spring Boot, plus third-party integrations (Firebase, WebSocket, Google Maps).

Bill-App

03/2024 — 04/2026 (2 years 2 months)

Full Stack Developer

Casablanca, Morocco / Lyon, France

- Designed and built from scratch the company's white-label web ordering platform, deployed for fast-food brands and franchises across Europe, with Lyf Pay and Stripe payment integration.
- Created two mobile applications published on the App Store and Google Play: BReports (real-time performance dashboards) and Burger'S (loyalty programme).
- Delivered features and fixes on the company's other production products (back-office, POS, kiosk, KDS) and contributed to AWS infrastructure and API gateways (Kong, Traefik).

SOTRAGEP

04/2023 — 06/2023 (2 months)

Full Stack Developer — End-of-Study Internship

Casablanca, Morocco

- Built JOBIFY, a job application platform on the MERN stack, covering database modelling, REST API and React interface.

Soft Seven Art

04/2021 — 06/2021 (3 months)

Full Stack Developer — End-of-Study Internship

Casablanca, Morocco

- Designed and built a residency-management web application solo (PHP, MySQL), with secure user authentication.
