Full Stack Developer with 2+ years of experience building and shipping web and mobile applications to production, including apps published on the App Store and Google Play. Proficient in React, React Native, Next.js, TypeScript and Node.js, from delivering SaaS products and AI-powered platforms to contributing to real products used by clients across France, Switzerland, Belgium and Morocco.

EXPERIENCE

Bill-App

Mar 2024 – Present

Full Stack Developer

Casablanca, Morocco / Lyon, France

- Shipped BReports, a React Native mobile app on the App Store and Google Play, letting restaurant managers monitor establishment performance in real time via a streamlined dashboard.
- Built Burger'S, a React Native loyalty app on the App Store and Google Play, enabling customers to manage points, track offers, and redeem rewards.
- Contributed to a white-label web ordering app (React/TypeScript) sold to restaurant clients — customers browse the menu, place orders, and pay online without a physical terminal.
- Delivered features, bug fixes, and version upgrades across mobile and web products shipping to real restaurant clients.

Soft Seven Art

Apr 2021 – Jun 2021

Full Stack Developer – Internship

Casablanca, Morocco

- Designed and developed a residential contact management web application solo, covering database design, REST API and frontend implementation.
- Gained hands-on experience within a professional agency environment, collaborating with the team on real client workflows and development standards.
